Launched my latest UiPath bot. Estimated saving is \$1.1 million a year and it's scalable so as more clients are added the savings goes up. Can't say enough how much I love UiPath!

The Forrester Wave Leader

“UiPath is a Leader with shared services and ease of bot design. UiPath is one of the fastest growing RPA vendors.

The platform easily handles attended robots developed by employees as well as unattended robots that can handle large-scale processing.

Customers noted its deployment flexibility.”
