Public Sector Strategy

Cabinet Office

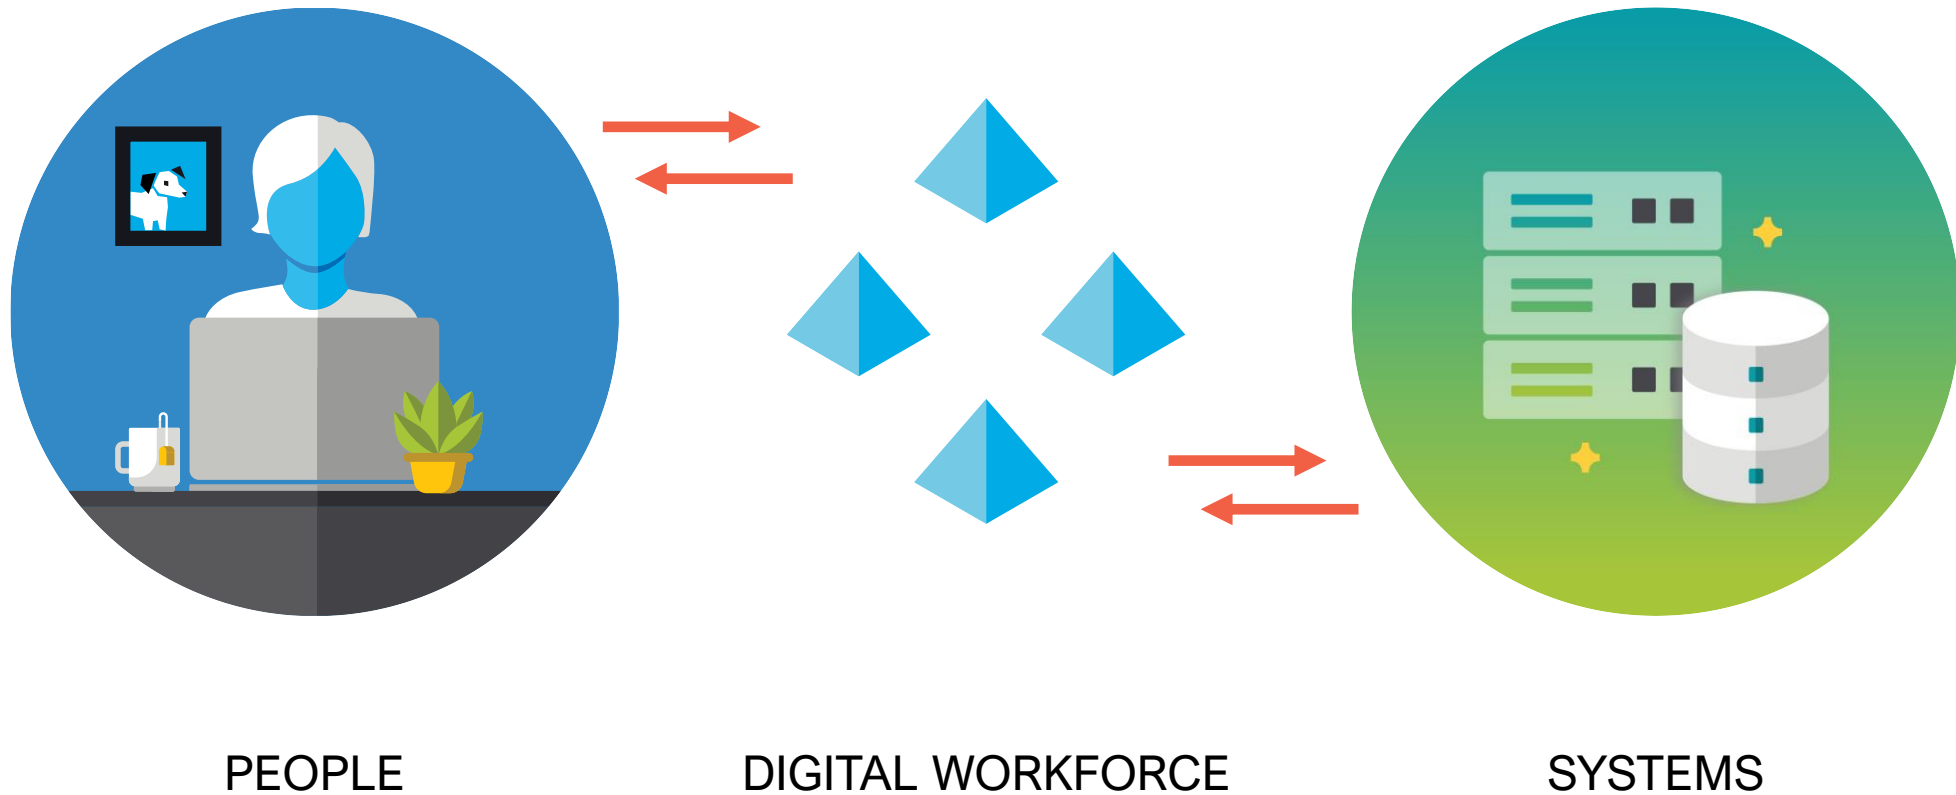

The Future Operating Model

Intelligent Automation for Local Government

Human workforce + digital workforce

So What is Intelligent Automation?

What does it do?

Powered by RPA

- Frictionless deployment
- No integration requirement
- No coding or agent deployment
- Unlimited scope across applications

Cloud-based SaaS

- Rapid and repeatable deployment
- Elastic Scalability
- Global Readiness
- Zero client infrastructure footprint

Cognitive Artificial Intelligence

- Extraction, translation and interpretation of information
- **Intelligent orchestration of work**
- Continual improvement

Three Core Objectives

What Blue Prism aim to enable in the UK Public Sector

- Increase the efficiency and productivity of the client organisation
- Improve employee engagement and staff morale
- Enhance citizen outcomes
