GDS' Digital and Data Covid-19 Response

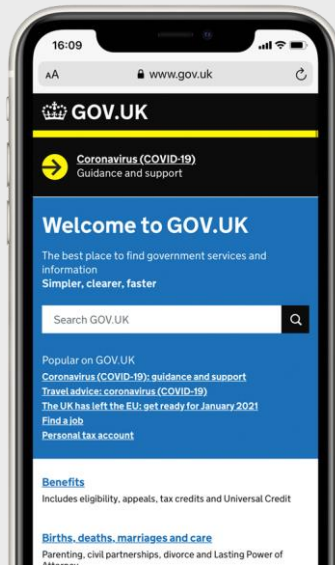

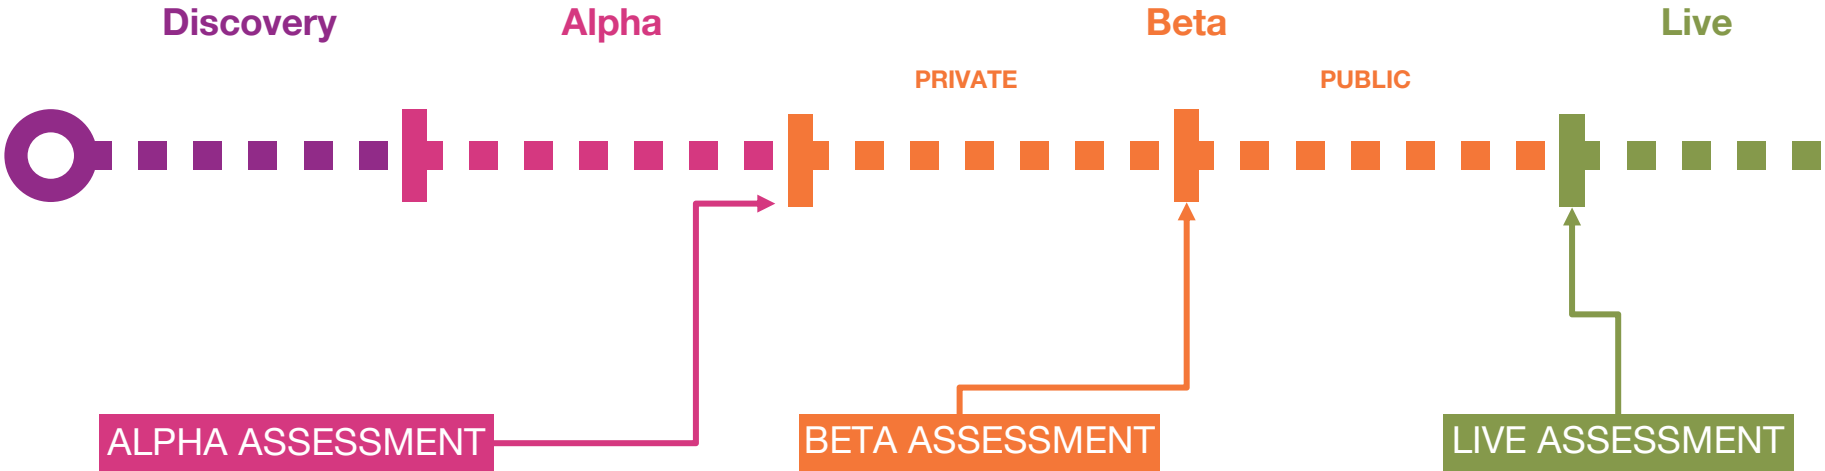

Government Digital Service

The GDS vision is to make government simpler, clearer and faster for users...

...and for it to cost less.

GOV.UK brought
2,000 sites to a
single domain

GOV.UK Notify

GOV.UK

GOV.UK Pay

GOV.UK Registers

GOV.UK Verify

GOV.UK PaaS

4. Standards
5. Delegation

(*other functions are available)

**So how has GDS
responded to COVID-19?**

Our existing digital services, standards, skills and policies have enabled us to be digitally resilient, nimble and innovative in responding to COVID-19.

1. New services

The Shielded Vulnerable People Service

Get coronavirus support as a clinically extremely vulnerable person

Register with this service if either:

- you have a medical condition which means you're classed as being clinically extremely vulnerable to coronavirus
- you've been told by your GP or hospital clinician that you're clinically extremely vulnerable and need to 'shield'

'Shielding' means not leaving your home and minimising contact with other members of your household.

You'll be able to ask for help if you need it - for example, with getting essential supplies or your basic care needs.

You can register yourself, or on behalf of someone else.

[Start now >](#)

A Business Volunteering Webform

Offer coronavirus (COVID-19) support from your business

Use this service to tell us how your business might be able to help with the response to coronavirus.

The support needed includes things like:

- medical testing equipment
- medical equipment design
- protective equipment for healthcare workers, such as masks, gowns and sanitiser
- hotel rooms
- transport and logistics, for moving goods or people
- manufacturing equipment
- warehouse or office space, for medical use or storage
- expertise or support on IT, manufacturing, construction, project management, procurement or engineering
- social care or childcare

You'll be asked some questions about the type of support you can give. You'll then be contacted as soon as possible if your support is needed.

2. Common components operating at scale

GOV.UK

[Home](#)

Coronavirus (COVID-19): what you need to do

Stay at home

- Only go outside for food, health reasons or work (but only if you cannot work from home)
- If you go out, stay 2 metres (6ft) away from other people at all times
- Wash your hands as soon as you get home

Do not meet others, even friends or family. You can spread the virus even if you don't have symptoms.

Announcements

Notify

GOV.UK Notify is available for the public sector to use for emergency staff communications

[Peter Herlihy - Lead product manager](#), 18 March 2020 - [GOV.UK Notify](#)

The screenshot shows the GOV.UK Notify landing page. At the top, there is a navigation bar with the GOV.UK logo and 'Notify' text, followed by links for 'Support', 'Features', 'Pricing', 'Documentation', and 'Sign in'. Below this, a breadcrumb trail reads 'GOV.UK services > GOV.UK Notify'. The main content area has a dark blue background with the headline 'Send emails, text messages and letters to your users' in white. Below the headline, a sub-headline reads 'Try GOV.UK Notify now if you work in central government, a local authority, or the NHS.' At the bottom left, there is a white button labeled 'Create an account' followed by the text 'or [sign in](#) if you've used it before'. On the right side, there is an illustration of a smartphone, a laptop displaying an email interface, and a document with the reference number 'Ref: AB12345'.

3. Supporting the Digital, Data and Technology function across the public sector

What is the “DDaT Function”?

Digital, Data and Technology Profession Capability Framework

Digital, data and technology (DDaT) roles in government and the skills needed to do them.

Published 23 March 2017

Last updated 7 January 2020 — [see all updates](#)

From: [Digital, Data and Technology Profession](#)

Contents

- [Data job family](#)
- [IT operations job family](#)
- [Product and delivery job family](#)
- [Quality assurance testing \(QAT\) job family](#)
- [Technical job family](#)
- [User-centred design job family](#)

This Capability Framework describes the job roles in the Digital, Data and Technology (DDaT) Profession and provides details of the skills needed to work at each role level.

COVID-19 Cross-Govt Coordination

GDS C19 DDaT Working Group

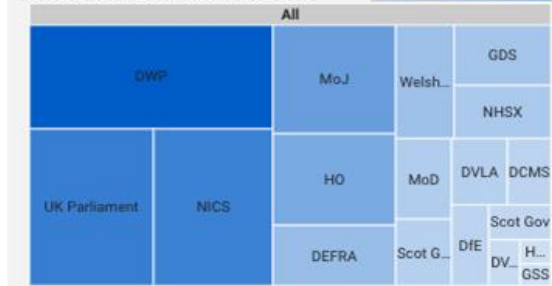

New and existing C19 services dashboard

GDS are collating data from members of the C19 DDaT Working Group on new services being spun up in response to C19, as well as existing services that are being used in response to C19 related demands. This is being combined and cross-referenced with tracking from GOV.UK on C19 work across government to build a complete picture.

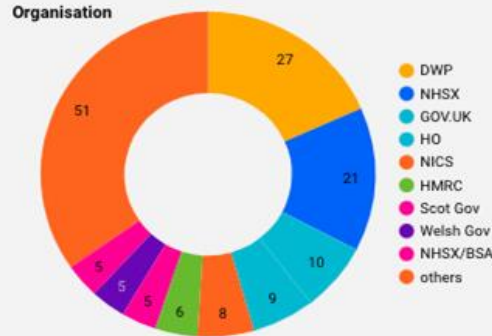

This work is led by the GDS C19 Hub team. The aim is to develop a live picture of HMG efforts on internal and external user-facing activities and identify common problems being solved.

Working Group returns	Working Group number of new activity/ areas with increased effort	Total number of C19 user-facing activities identified	Services using the GDS design system
Total 18	Total 183	Total 147	Total 52

Covid19 DDaT Working Group returns:

Cross-government C19 user-facing activities
