The Digital And Data Highway

Connecting and collaborating in Leeds

- Collaborate
- Connect
- Encourage partnership working
- Simplify the governance
- Use smart devices and services
- Data driven decision making
- AI

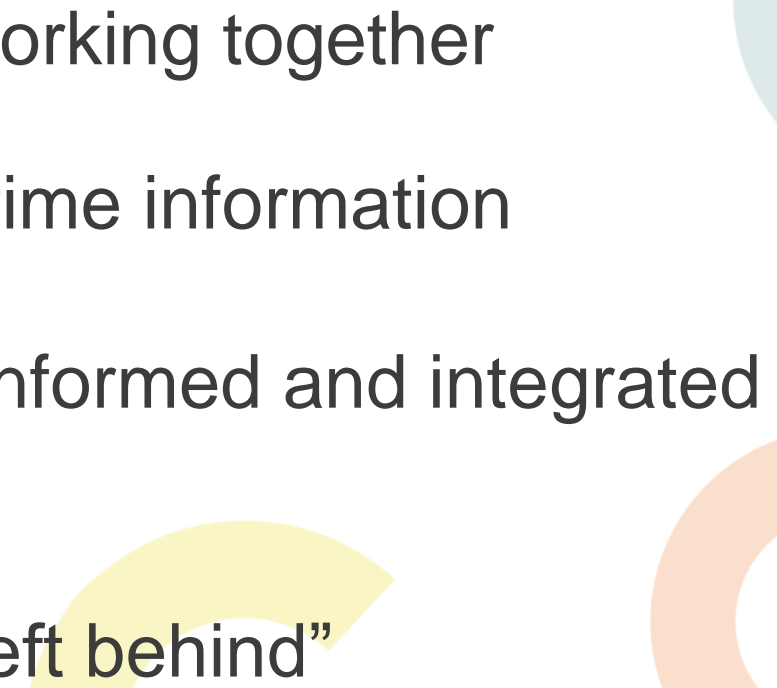

Individuals, patients and workforce benefitting from a joined up and seamless ecosystem

How do we get there

Integrate the city

- Health, private and council services working together
 - Shared Care Record - joined up real time information
 - Office of Data Analytics - supporting informed and integrated decision making
 - 100% Digital - supporting “no one is left behind”
-
